

AMAL RAJ PUTHERIL

UI / UX DESIGNER

Profile

I'm a User Experience Designer based in Kochi, Kerala. I primarily focus on UX research & development, interface designs and branding. I have experience in designing both websites and mobile applications.

I have close to two years of experience with the industry in both full time work as well as short to mid term contracts. I'm still on the look out for more challenging projects and clients to further my skills.

As a UI/UX designer, I am well-versed in the entire design process, from gathering requirements and conducting user research to creating wireframes, prototypes, and final visual designs. I am experienced in utilizing design tools such as Sketch, Adobe XD, and Figma to bring concepts to life. Furthermore, I am knowledgeable in responsive design principles, ensuring optimal user experiences across different devices and screen sizes.

I am constantly seeking to expand my skills and stay updated with the latest design trends and technologies. I am committed to delivering intuitive and visually appealing interfaces that not only meet user expectations but also align with business goals.
